

## Environmental Compliance Declaration

April 2016

### RoHS (RESTRICTION OF HAZARDOUS SUBSTANCES)

Quantum products have been designed and manufactured to be compliant with European Union Directive 2011/65/EU on the restriction of the use of hazardous substances in electrical and electronic equipment. Quantum's designation that a product is RoHS compliant means that the product does not contain any substances in excess of the maximum concentration values allowable under EU Directive 2011/65/EU, unless the substance is in an application that is exempt under RoHS.

The following products are currently declared to be RoHS compliant:

DXi® Deduplication Appliances  
Scalar® Tape Libraries  
SuperLoader®  
NDX NAS & RDX Disk Solutions  
StorNext® Appliances

Lattus™ Object Storage  
Scalar LTFs Appliance  
LTO/DLT® Tape Drives  
DAT/DDS Tape Drives  
RDX Removable Disk Drives

GoVault™ Removable Disk Drives  
QXST™-Series Disk  
Xcellis™, Artico™  
M- and G-Series Appliances  
Media

### REACH (REGISTRATION, EVALUATION, AUTHORIZATION AND RESTRICTION OF CHEMICAL SUBSTANCES)

Under the REACH Regulation (European Union Regulation 1907/2006/EC), companies may have certain registration and notification obligations in connection with the REACH substances. However, Quantum currently does not have such registration obligations because Quantum does not ship REACH substances or preparations as defined by REACH, and Quantum products do not intentionally emit or release REACH substances under normal or reasonably foreseeable conditions of use.

Quantum is not currently aware of any REACH substances in its products in excess of 0.1% weight by weight, and as a result generally does not have any notification obligations under REACH. There may be situations, however, when shipping service parts, such as Customer or Field Replaceable Units, which may cause notification obligations. At this time, in certain limited applications that may be relevant to the shipment of service parts (for example, power or data cables), the following substances may be present above 0.1% weight by weight:

- DIBP – Diisobutyl phthalate CAS# 84-69-5
- DEHP – Bis (2-ethylhexyl) phthalate, CAS# 117-81-7
