Artico Increases Productivity by Lowering the Cost of Storing, Accessing, and Protecting Data

STORE MORE. ACCESS FAST. SHARE CONTENT.

Quantum's Artico™ is a complete solution that enables workgroups to store and share more data to add value to work and increase overall productivity. Artico provides the most economic approach to online storage so users can afford to store and access more valued data and content than ever before.

ACCESS ACTIVE DATA FROM DISK. LEVERAGE CLOUD, OBJECT STORAGE, OR TAPE FOR PROTECTION AND LONG-TERM RETENTION.

Artico enables workgroups to share active data directly from high-performance disk storage and to create policies that will intelligently migrate data to less-expensive archive storage as the content ages. Quantum's integrated StorNext® technology offers powerful policy-based data movement from active disk to a comprehensive range of archive storage technologies including Tape Libraries, Object Storage, and Cloud.

AN EXCELLENT CHOICE FOR SMALL OR LARGE ENVIRONMENTS

Artico is a purpose-built appliance that can start as a standalone NAS share with 33TB of usable storage, and can seamlessly grow by upgrading disk storage to 73TB as well as by attaching archive storage that can scale to petabytes and support up to a billion files. The Artico solution can grow as your storage needs grow.

DESIGNED FOR FLEXIBILITY. EASY TO DEPLOY.

Artico is a NAS appliance that is compatible with SMB1 (CIFS), SMB2, SMB3, NFS v3, and NFS v4 protocols and supports mainstream OS platforms (Mac, Windows, Linux) and applications that run on those platforms. Artico comes with 10GbE connectivity for the NAS share. On the back end, Artico can support Fibre Channel libraries and 10GbE archive storage targets.

FEATURES & BENEFITS

Fully integrated system

Artico is a NAS-based, shared-storage solution designed to reduce storage costs and optimize productivity.

High-performance shared disk storage

Enables collaborative workflows for workgroups of all types.

Cross-platform collaboration

Collaboration across Linux, Windows, UNIX, and Mac OS X operating systems simplifies deployment and supports the broadest range of applications.

Built on StorNext

The award-winning file system software field-proven in tens of thousands of facilities worldwide.

World-class support from Quantum

Quantum has a global presence in more than 180 countries, with 24/7 online and multilingual expert phone support for our breadth of product lines including Artico, StorNext®, Scalar®, and Lattus™.

Figure 1 - Artico can be combined with intelligent data management software from many of Quantum's technical partners, to migrate data from primary storage to a more cost-effective archive tier.
