

Genetec & Quantum Provide a Seamless Data Management Solution for Transportation

Transportation hubs need a high-performance data management solution that's able to handle full-res video streams integrated with real-time analytics going at 100%. The Quantum StorNext® integration with Genetec Security Center provides rapid access to recorded video, which enables IT and security managers to easily leverage the data they need to move from insight to action.

KEY BENEFITS

- **Store large amounts of data** in a cost-effective and scalable manner, based on needs and usage.
- **Conduct investigations faster** with advanced reports that seamlessly draw on all recorded video, regardless of where it is stored.
- **Increase retention rates** while maintaining all critical data.
- **Using multi-tier storage**, users can access video that was just recorded or in long-term storage as though it was a single drive.
- **High-performance storage solution** built specifically for video capture, retrieval, and analysis.
- **Grow your system at your own pace** with the latest HD devices while still having the ability to lower your total cost of ownership by preserving existing cameras.
- **Ensure 99.9% system uptime** with high-availability features.
