

TOP REASONS TO CHOOSE QUANTUM'S DATA PROTECTION SOLUTIONS

Quantum®

1 ONE SOLUTION FOR PHYSICAL & VIRTUAL PROTECTION

Combine the power and flexibility of deduplication with the simplicity and affordability of a VM using your current infrastructure.

2 RESTORE VMs IN MINUTES NOT HOURS

Quantum enables you to return to operation much more quickly in a virtualized environment.

3 MAKE BUSINESS CONTINUANCE/ DISASTER RECOVERY VIABLE FOR ANY SITE

Efficient disaster recovery of physical and virtual data, no matter your size.

4 DRAMATICALLY REDUCE BACKUP SIZES & TIMES

Deduplication saves you time while reducing disk and bandwidth by over 90%.

5 N-TIER ARCHITECTURE MATCHES DATA COST TO VALUE

Our N-tier architecture matches the total cost of storage and protection to the value of the data.

6 SIMPLE, AFFORDABLE SCALING

Our easy-to-deploy solutions adapt to your growing needs.

7 RESTORE ANY DATA AT NEAR BACKUP SPEED

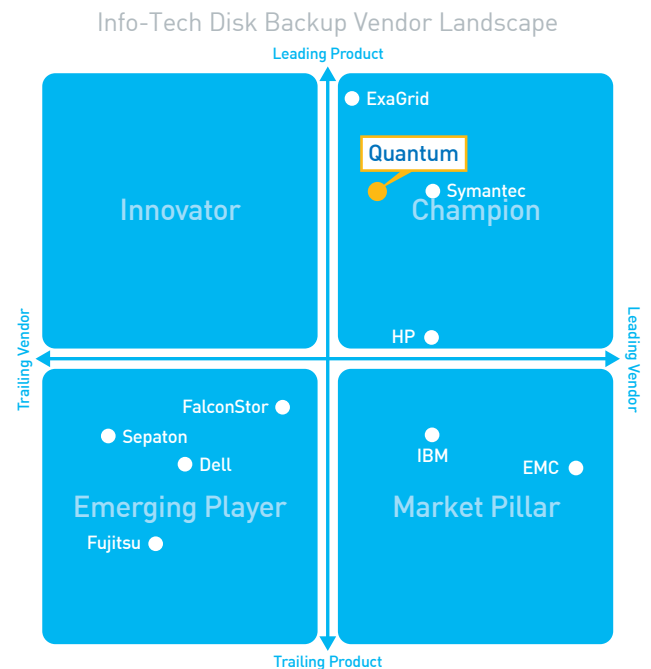

Minimize operational interruptions with maximum restore speed.

Quantum has set another standard for flexible, robust, and high-performance data protection.

- Tony Palmer
Senior Engineer, ESG Lab

Over three years, Quantum customers in this study enjoyed returns of \$4.75 for every \$1 invested and a payback in seven months.

IDC ROI Study

Leading Organizations Rely on Quantum Data Protection Solutions:

BE CERTAIN.
